REPORT TITLE
Clerk's Report - For Information Only #31/05/13/801

1. On May 23 I attended an on-line seminar concerning Blue Box funding grant of \$5,000 for our Promotion and Education plan which has been on hold for over a year due to limited direction. To assist smaller municipalities staff of Waste Diversion Ontario have put together a draft plan and program which can be used as a basis for our own program. Work will begin in the near future to complete this process. The funding is secure. Our plan is to address the proper preparation of materials, seasonal users and encouraging those who have not participated fully in the past to recycle.
2. The New Horizons for seniors program is now accepting applications for the next funding year. Any suggestions?
3. How does council feel about a buy/sell page/column in the Newsletter for local residents?
4. The company contracted by CP to remove the poles along the railway have advised that they are offering the poles for free to anyone who would like to remove them. Please contact JoJo at 204-232-7383 for additional information. It is our understanding that all cross beams, wires etc. still attached would be the responsibility of the person taking the poles.
5. We are now in receipt of somewhat completed drawings from Mr. Morris. He has dropped off a copy for staff review. He estimates his completion time of approximately 1 week. He has forwarded copies to Ed Schulz. Ed is to advise their timeline asap.
