|--|
| Clerk's Report - For Information Only 12/08/11/801 |

1. I have heard from Bill Instance, he is working on the harassment issue referred to him and will likely contact each of you in the near future to that end.
2. One summer student is finished work today; the other will finish his employment with us next week.
3. The staff of the 4 Seasons Lodge have expressed that their outing at Old Mackey Park was well met with their residents and would like to continue. Staff have given permission for them to use our BBQ for additional outings. We will have staff deliver and pick up the BBQ as last time.
4. Staff have directed that an instrument registered in error in 1999 during a severance of the Tooley property in Bissett attaching a right of way to all parts of a severance be deleted. At that time all parts of the severed parcel were encumbered with a right of way for road access even when some of those parts did not front on the road or the deeded right of way. This action is required to clear title on a property pending a sale. I have been ensured by the purchaser's solicitor that the township will not be held financially responsible for this deletion. Should the error be presented to the lawyer who registered it in error for correction at his expense as it may affect other properties at future dates? Council's thoughts?
5. Complaint of goose droppings at Old Mackey Park and not wanting to use the facility that we have created due to the unsanitary nature. Any thoughts on diverting. Ken Giroux has been looking into using a type of fertilizer that they are trying in Ottawa as a deterrent, not sure how Council would like to proceed with this problem.
6. I have been meeting with Petawawa, Laurentian Valley and Philippe Geoffrion on the county wide emergency management exercise for 2011. Please set aside Wednesday, October 25, 2011 for our exercise.
