

Roads Report
For December 2008
Submitted Jan 12, 2009

- There were 7 major snow events causing hours of shovelling and removing snow from around the municipal buildings and disposal site gates.
- There were 2 major ice storm day events
- The roof of the municipal building was snow raked to remove some of the accumulation
- The clearing of snow from the helipad has been suspended
- The windstorm caused trees to be blown onto municipal roads (McIsaac, Jobidon, and Donnelly) which were cleared within 24 hours and a contractor was hired to assist with the clearing of Donnelly Road.

Wilfred Lamure
Road Superintendent
